

# Global Advantech Limited

## Health and Safety Policy

Global Advantech recognises its responsibilities under the Health and Safety at Work Act 1974 and amendments to, and re-enactments thereof. The directors will ensure that the company's operations are executed at all times in such a way as to ensure, as far as it is reasonably practicable, the health, safety and welfare of all persons likely to be affected, including employees, sub-contractors, visitors to our premises and members of the public.

Global Advantech's directors accept their responsibility to maintain health and safety as a business priority and will always take the lead in promoting standards and exemplary health and safety both on-site and off-site. They will consult, listen and respond openly to employees, contractors, customers, distribution and OEM partners and other relevant third parties and ensure compliance with relevant legislation and current best practice to improve health and safety standards.

### **Global Advantech is committed to a goal of no accidents and no harm to people:**

The directors recognise that good health and safety performance, and the health and safety of everyone who works for us or is affected by our activities, is critical to the continuing success of our business. Employees and contractors are expected to take ownership of their health and safety responsibilities both on-site and off-site.

Global Advantech is committed to continual improvement of its health and safety management systems and to ensure that they comply with current health and safety legislation and any subsequent changes.

Michael Levey  
Managing Director  
26/06/2011
